Q&A

What are your most popular products or services?

The Moosja, a sleevescarf that can be worn on many occasions and easily combined with all kinds of outfits. It keeps you warm and makes you look hot!

What tip would you give women who are starting a business?

Devote yourself to it. The fun thing about starting your own business is that you can do anything you like in any way you like.

What place inspires you and why?

It's the change of places that inspires me most, although I kind of prefer Buenos Aires, Bali and the beach (of Scheveningen). They all breathe life, love and excitement.
